About PPT to FlashBook

Have you imaged to show the relevant information in view and in context to allow your audience to draw their own conclusions about your slide content? Or do you own a slide containing a bullet list or written explanation and would like to be able to show a series of images associated with each point in the bullet list, or with the written explanation?

To show two slides of your PowerPoint files at once so you can always see the next slide up in the presentation, PPT to FlashBook will be a good choice for you.

PPT to FlashBook is special and great software helps to present two consecutive PPT slides side-by-side in animated flash eBooks. Then you can view two slides at once to compare and contrast the slides more easily and clearly. The output flash eBook pages can be flipped automatically or by manually clicking anywhere of the pages.

Besides helping you to display relevant slides in animated flash booklet with a new look, PPT to FlashBook also enables you to customize template to show your slides with background image and sound added.

With PPT to FlashBook, you can convert your presentations into vivid and animated flash booklets which can be published online or burned to CD. The program PPT to FlashBook provides multiple different output modes for you to choose: "HTML" is for publishing online, "ZIP" can be much easier for emailing, "EXE" is an intergraded format for quickly viewing, "Burn to CD" to output your digital books directly on CD-ROM.

Detail features include:

- Convert PPT to side-by-side flash booklets.
- Output in 4 different formats: HTML, EXE, Zip and Burn to CD.

HTML allows you to upload to a website to be viewed online.

EXE and Zip allow you to send to your user by email to be viewed on their computer.

Burn to CD allows you to burn to disk so you can send out with physical media.

- Provide multiple templates with previewing effects instantly.
- Set eBook title and margin manually.
- Insert background music, always play or define times.
- Set background color, image or flash.
- Enable full screen and zoom in.
- Allow view from right to left.
- Auto and loop play slides from the very beginning.
- Export and save settings for future uses.

Using PPT to FlashBook

PPT to FlashBook can be started either by launching the application via the desktop short cut , or directly from Windows Explorer.

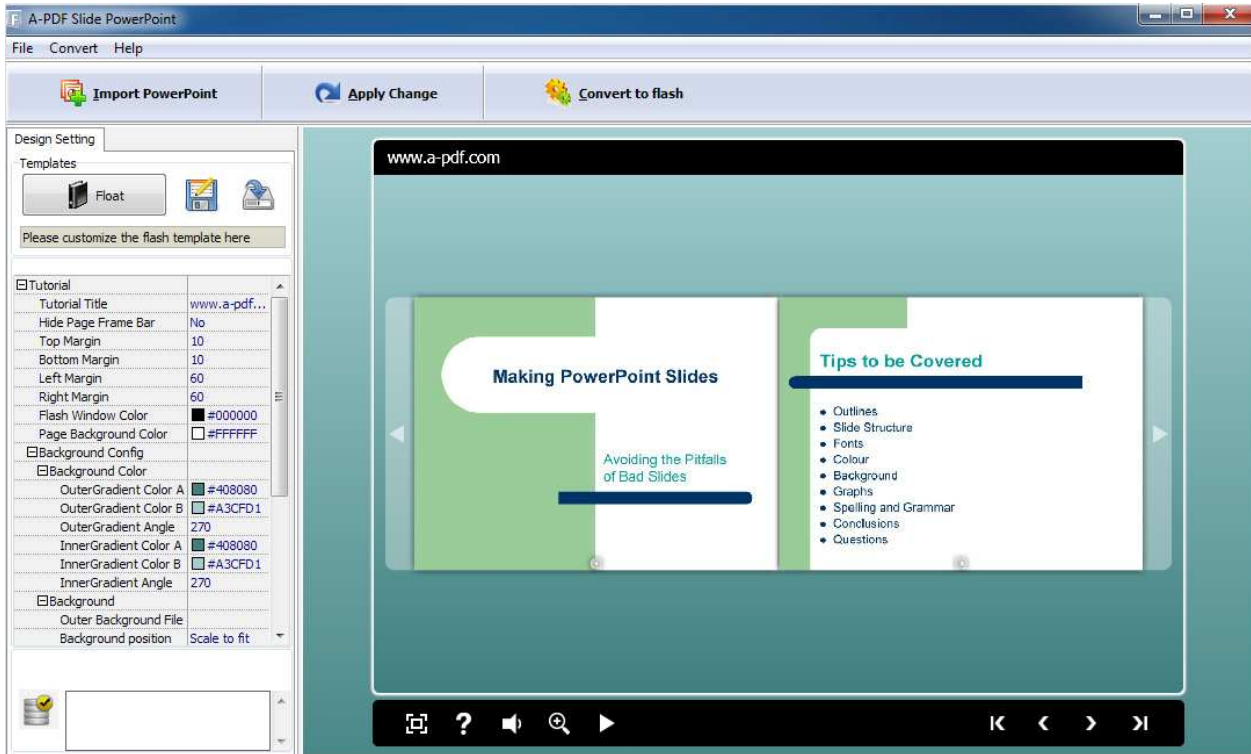

Start the program, you will see the below initial window:

PPT to FlashBook

Display two PowerPoint slides at a time
